I didn't see anything that jumped out at me to preclude them going forward with this plan.

Subject: FW: Falcon Refinery Superfund Site Barge Dock Closure Request

Good Morning

EPA has received the attached report/request from the new owner of the Falcon Refinery Site. They are requesting that EPA review a risk assessment that their contractor performed for the dock area (AOC 4). The company is currently seeking a loan and is wanting to use the dock area as collateral. The purpose of the loan is to complete the ongoing work of retrofitting the tanks on the site. This would require the removal and disposal of the hazardous that is currently in the tanks and would complete the ongoing removal actions at the site. EPA is going to forward the report to the contractor that is currently working on the RI for their comment and input. I would appreciate any comments and concerns about the report that you have. I would like to have comments back to the new owner by the end of February and I will send you our comments before forwarding to the new owner. Please call or email me if you have questions or concerns.

Thanks

Brian W Mueller RPM

Attached is the Closure Report for the barge dock facility. Due to the size of the report I may need to send the report by our ad-hoc ftp service. If you receive this report please respond to this email.

which may be a computer program. This attached computer program could
contain a computer virus which could cause harm to EPA's computers,
network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced
into the EPA network. EPA is deleting all computer program attachments
sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you
should contact the sender and request that they rename the file name
extension and resend the Email with the renamed attachment. After
receiving the revised Email, containing the renamed attachment, you can
rename the file extension to its correct name.

For further information, please contact the EPA Call Center at
(866) 411-4EPA (4372). The TDD number is (866) 489-4900.
